3-TRAILS TRANSIT CENTER DEDICATION

Dedication of the Historic 3-Trails Transit Center and expansion of the site as the official outdoor transit center is underway.

The Kansas City Area Transportation Authority (KCATA) has selected the historic National Park Service building as a major transit hub. The building is a major landmark in the area, and the historic National Park Service building is being converted into a major transit hub. The building is a major landmark in the area, and the historic National Park Service building is being converted into a major transit hub.

The new major transit hub is a major expansion for the bus transit system, which will serve the area and provide a major transit hub. The building is a major landmark in the area, and the historic National Park Service building is being converted into a major transit hub.

The National Park Service will integrate the site as an official outdoor transit center and will be the new center where the Cultural, Oregon and Santa Fe National Historic Trails converge. The dedication of the site is part of a broader effort to improve the transit system for the National Trails System. The National Park Service is providing a major transit hub for the National Trails System. The National Park Service is providing a major transit hub for the National Trails System.
