WITH

FIRST MILE / LAST MILE PROGRAM

1

## Two Ways to Participate

Purchase a monthly pass via CATSPass mobile app. Within 24 hours, a code will be activated in your Lyft app for use within the geo-fenced area. A monthly pass purchased through CATSPass provides **40 Lyft** trips per month.

OR

**Enter the Station Code into the Lyft app.** Riders with a current valid CATS/LYNX pass can enter this Station Code displayed below into your Lyft app for use within the geo-fenced areas. This option provides 2 Lyft trips per month while supplies last.

2

## Pick Your Station

A trip must originate or terminate at this station and end or start in the specified area displayed on the Map below. This area was selected to fill gaps in the existing transit network in order to provide better access to the region's extended rail system. See below map for travel area for this station.

3

## Pickup and Drop-off Locations

There is a designated location to be picked up and dropped off by Lyft. The JW Clay / UNC Charlotte Station Pickup/Drop-off Location is adjacent to the bus bays located on the backside of the parking deck
