DART Electric Buses – Catch a Ride Today!

Today DART put Iowa's first electric buses into service on [Local Route 60 – University/Ingersoll](#). Catch a ride on the all new, all electric buses today!

Every DART electric bus comes packed with over 660kWh of people-moving power. 100% planet-saving sustainability. And a grand total of zero emissions. They cost less to operate too. Powered by MidAmerican Energy, DART electric buses are the only bus with a gas-free guarantee.

Plan your trip using the [MyDART App](#) or check the [Route 60 schedule](#). While riding, be sure to check out all the [cool features](#) offered on DART electric buses.

DART's fleet of seven electric buses are clean, quiet and connected. [Learn more](#) about how Iowa's first electric buses are different from their diesel counterparts and DART's pilot project to test how the zero emission vehicles will operate in Greater Des Moines.

Rider note: When we say DART's electric buses are quiet, we really mean it! The buses are 50% quieter than their diesel counterparts. Please be aware of your surroundings when waiting for one of our electric buses.

Catch a ride today!
